

MEMORANDUM FOR: Messrs. ~~Proctor~~ ^{WJP} Walsh

As I recast this for your signature, one change seemed to require another. I also found that it worked better to make the central portion of the memo into two paragraphs. As a result, it looks considerably different than when you last saw it. Shackley has just signed off on this version. I don't think we would have to refer minor changes to DDO, but if you have major problems, I'll take it past them again.

Inasmuch as we invoke the DCI's name, I assume we should run this past [redacted] and/or Ben Evans.
